Activity for Advance Learners

Celebration of Samvidhan Diwas

The celebration of Constitution Day can have several positive outcomes, including:

Increased awareness: Celebration of Constitution Day can increase awareness among Students and citizens about the Indian Constitution, its provisions, and its significance in shaping the country's history and future.

Promotion of constitutional values: Celebrating Constitution Day can promote constitutional values such as democracy, secularism, socialism, and the rule of law. This can help to strengthen the country's democratic institutions and ensure that students uphold and protect these values.

Strengthening of democracy: Constitution Day celebrations can help to strengthen democracy by encouraging citizens to participate in the democratic process, exercise their rights and duties, and engage with issues that affect their communities and the country as a whole.

Education and learning: Constitution Day celebrations can be an opportunity for schools, colleges, and other educational institutions to educate students about the constitution and its provision

Overall the celebration of Constitution Day can have positive outcomes for students citizens promoting awareness and a sense of unity and belonging.

Principal Dr. P.S. Yenkar delivering a speech on the occasion of Samvidan Diwas

Students of Vidya Bharati Mahavidyalaya reading a Preamble Indian Constitution on 26/10/2023

'Role of Internal Complaint Committee under POSH

Cell to Prevent Sexual Harassment of Women's Welfare Committee of VidyaBharati Mahavidyalaya, Amravati, conducted a seminar on "Role of Internal Complaint Committee under POSH (Protection of Women From Sexual Harassment)" on 6th Dec 2022.

Dr. Varsha Deshmukh enlightened on the topic "Role of Internal Complaint Committee under POSH (Protection of Women from Sexual Harassment) ".Building up of a value based work culture is expected to be inherent in every educational setting; Moreover in our male dominated society, issues related to women are quite complex and are multi-folded and overlapping day by day, Today cyber crime is a global phenomenon. With the advent of technology, cyber-crime and victimization of women are on the high and it poses as a major threat to the security of a person as a whole. Home was the safest place for a woman to protect herself from being victimized, but not now. So in order to sensitize ourselves from this issue our today's topic revolves around Protection of Women From Sexual Harassment. What it is?, What is the role of Internal Complaint Committee, What is POSH, Rules and Procedures, Redressal Mechanism and many such issues were discussed by the guest speaker for today's seminar She discussed various types of crimes going on today, along with the necessary steps to avoid and be aware against it.

Students who participated in Seminar on Cell to Prevent Sexual Harassment on the topic"

Felicitation of Dr. Varsha Deshmukh by Principal Dr. P.S.Yenkar

Work shop on "Awareness Program on Green Energy"

A green energy awareness program was concluded on February 11, 2023 at 11 a.m. organized by Vidya Bharati College Camp Amravati. The keynote speaker of the event was Mr. Srikanth Tikhile, Director of ECE Amravati Green Energy. After convincing the students about the relevant information and the importance of green energy in daily life, he told people about the use of solar energy. It is called non-conventional energy as it does not invest in transactions. Nevertheless, solar energy is a valuable source of renewable energy. To get solar energy Photovoltaic systems, centralized solar power and solar water heaters are used. Solar energy projects are expensive in terms of capital investment but last longer and have lower maintenance costs. Green energy plays a key role in the energy transition due to its low environmental impact. It offers an alternative to non-renewable energy and helps fight global warming by not producing greenhouse gases or increasing carbon emissions.

The primary objective for deploying renewable energy in India is to advance economic development, improve energy security, improve access to energy, and mitigate climate change Generating energy that produces no greenhouse gas emissions from fossil fuels and reduces some types of air pollution.

Diversifying energy supply and reducing dependence on imported fuels.

Creating economic development and jobs in manufacturing, installation, and more.

Chief Guest Mr. Shrikant Tikhile, Director & Business Unit Head-Retail Department, ECE India Energies Pvt., Ltd, F-27, MIDC, Amravati.
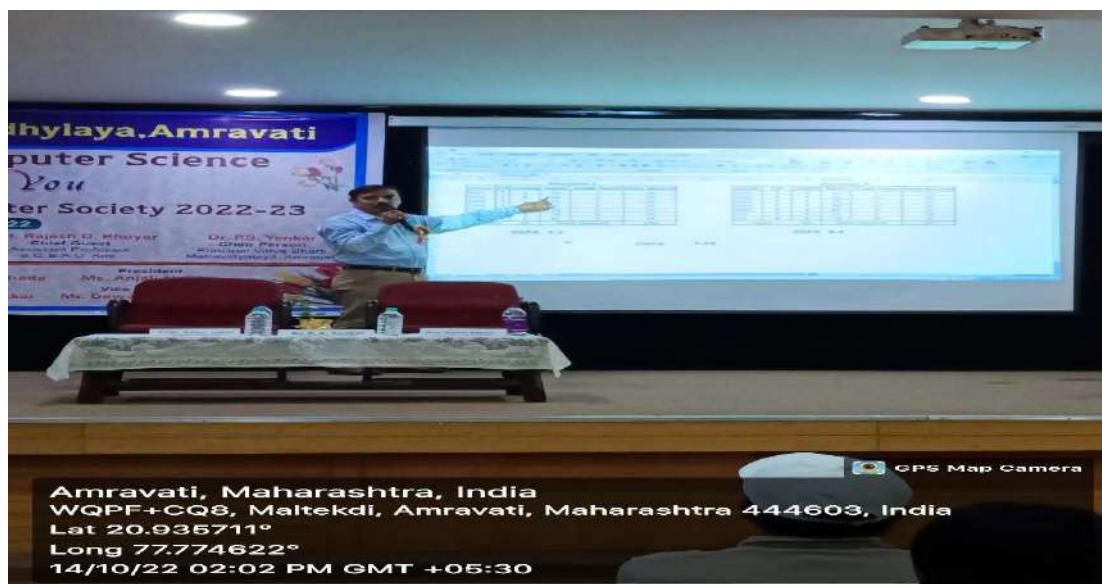

Guest lecture on Choice Base Credit System

College has organised case lecture on this topic the speaker for this guest lecture was miss Deepti more she asked student about what is idea generation and one of the student of second year Cosmetic answer that the creative process of generating development and communicating new idea speaker also explain about the product and Exploration in what type like a research idiot and evaluate and last she also explain product validation like prototype test and learn main gone and with new product.

In this photo Department felicitate and introduce our guest to the audience

Interactive session with student make it easier to understands process and steps of new product development.

Workshop on Advanced Artificial Intelligence.

The aim of this program was to get familiar with the Advanced Artificial Intelligence. The program started with the felicitation of the guests. The introduction of the guest was given by Mr. B. D. Bundele, Head, Department of Electronics. The Guest introduced the Advanced Techniques like Artificial Intelligence and its use in the various applications which is the part of our day to day life.

Mr. B. D. Bundele, Head, Department of Electronics introducing Guest in the Introductory Speech.

Students patiently listening the Guest, explaining How the AI can be used in Academics purposes.

Guest Lecture on How to Prepare for GATE Exam

The aim of this workshop was to make them aware and to know more about how the digital mobile technology works nowadays and the difficulties we are facing while using it. Students were aware about how to repair the mobile phone and the tools required for the mobile repairing. The program started with the felicitation of the guests. The introduction of the guest was given by Mr. B. D. Bundele, Head, Department of Electronics. Students were delighted to attend such an informative workshop. They listened carefully and asked due questions to the speaker. Students saw the demonstration delivered by the guest and did the hands on according to the guidance of the guest speaker. Over all the program was successfully conducted.

Mr. Raj L. Sahu, Director, Raj Mobile Repairs, Amravati Delivering the guest lecture on Digital Mobile Technology and Repairing.

Students and the Staff patiently listening the Guest, explaining How the mobile technology works, issues and remedies on it.

Workshop on Artificial Intelligence

The objective of this workshop is the field of AI and machine Learning is evolving at a faster rate than one can imagine, This workshop on Artificial Intelligence and Machine learning was organized by College. The success of program depends on work of student as an individual and as part of a multidisciplinary team to develop and deliver quality

The workshop enabled students to implement various machine learning models. During the workshop students were taught basics of Python, Later they were made to understand basic of Machine learning and implementation of various models. Student will have to demonstrate how to apply the AI in lifecycle by demonstrating competence in communication, planning, analysis, design, construction, and deployment. Developer will have ability to work in one or more significant application domains. Developer will demonstrate an understanding of and apply current theories, models and techniques that provide a basic for the software lifecycle. Developer will able to use techniques and tools necessary for engineering practice.

Program Guest Ms. K. Dhande Madam and Prof.Ms. Shilpa Saravaiya madam in "Artificial Intelligence" Workshop

Guest Ms. Kajal Dhande Madam addressing students
