Introduction -

Marathi though is mother tongue but many times students using it appear facing problems in written and oral communication. The rules of grammar are seen missing. The syllabi prepared at the University level seem to be insufficient and unable to meet the requirement at practice. Therefore, this certificate course has been designed to add value to the degree program.

Due to the advancement in information and communication technology, the practice of writing is vanishing day by day. Moreover, there is a spurt in growth of various short forms of different words and negligence in rule of grammar. It seems that the standard Marathi language is losing its importance. On this background the present course may definitely useful for the students in acquiring language skill.

Aim

To provide specialized training of standard Marathi.

Objectives -

To acquaint students with norms of applied Marathi.

To enable the students to know rules of grammar in applied Marathi.

To acquaint students about the importance of applied Marathi in various fields.

To maintain and sustain the standard vocabulary in Marathi.
