Do you know how many Ganeshji idols are being worshipped in our beloved institute? The answer is more than 1000 under the guidance of Shivrai Kulkarni who is the great social worker from Amravati. Now just think of what happens when all these idols along with the Pooja remains are immersed in the Wadali Lake which is the only big water body around the Institute. According to a study, these hundreds of kilograms of waste decreases the pH level from 8.5 to 7.8, increases the temperature by nearly 5-degree centigrade thereby badly affecting the aquatic life and soil quality of the lake.
